

Come and join us in exploring family health care nursing and child health nursing!

What is
a Certified Nurse
Specialist (CNS) in
Family Health Nursing?
What kind of
graduate-level studies
does this involve?

In a nutshell, it
involves theory-based
family nursing. We are
training CNSs who are
able to provide the best
possible care/caring
for families!

The objective
is to obtain
a master's degree or
a doctorate and
become a university
instructor!

We provide
instruction in world
class, cutting-edge
research. We have a track
record of producing many
pioneers, and you can take
pleasure in engaging in
research with your
colleagues!

If you're interested,
please feel free to
contact us!

Naohiro Hohashi, Prof., PhD, RN, PHN, FAAN

Division of Family Health Care Nursing

Certified Nurse Specialist (CNS) in Family Health Nursing Program

Graduate School of Medicine, Kobe University, Japan
